

Reporting date: 29 October 2021

Investment Objective

The investment objective of the CCM Intelligent Wealth Fund is to achieve capital growth.

Company Profile

Carvetian Capital Management Limited is the Authorised Corporate Director (ACD) for CCM Intelligent Wealth Fund.

Fund Profile

The Fund will predominantly (at least 80%) invest in a diversified portfolio of equities, held either directly or indirectly through exchange traded funds and collective investment schemes ("CIS") investing in those sectors described below. The Fund may also invest in bonds (both corporate and government debt securities), money market instruments, cash and near cash, warrants and other transferable securities. It is the ACD's intention that derivatives and forward currency transactions will only be used for the purposes of efficient portfolio management, including hedging.

Direct equity exposure will be achieved through investment in companies that are shaping our future by causing disruption in today's established marketplace, changing the way we work, shop and interact, or improving our healthcare or environment (though the Fund has no particular social or environmental goals). Intelligent or creative thinking leads to innovation. The CCM Intelligent Wealth Fund aims to invest in companies that harness such innovation to achieve growth by creating new markets or disrupting established ones.

Exchange traded funds and CIS that invest in industry sectors where innovation is driving major transformation will also be held by the CCM Intelligent Wealth Fund. Once a sector no longer evidences innovative and disruptive characteristics it will be removed as an investment theme and the exchange traded funds or CIS that operate in that sector will be sold.

There is no intended geographical focus, though, as it is home to numerous innovative and disruptive companies, US stocks held either directly or through collective investment arrangements may feature heavily in the portfolio. Similarly, innovative companies are often small with highly motivated, involved and committed management, so smaller companies held either directly or through collective investment arrangements may also feature to an extent greater than in other funds. Innovative and disruptive companies will comprise the predominant element of the portfolio.

The Fund may invest in CIS which have different investment strategies or restrictions than the Fund, including the ability to invest in derivatives for investment purposes and to gain exposure to assets which are not expressly listed above. Investment in CIS will usually be limited to those which invest primarily in the assets listed above and without exception, CIS will only be held in so far as the rules permit the Fund to gain exposure to the assets held by those CIS. The CIS in which the Fund will invest may include schemes which are managed or operated by the ACD or an associate of the ACD.

A Glossary of Definitions which provides definitions to some of the technical language used in this document is available from www.carvetian.com/policies.
